

Setting Up a Fly Rod for DRY FLY Fishing

Eight Recommended Dry Flies

Parachute Adams
Size 14 - 18

Elk Hair Caddis
14 - 18

Dave's Hopper
Size 8 - 10

Griffith's Gnat
18 - 20

If you can, try to get 2 or 3 flies in each size. I understand that's a lot of flies, but trees, rocks and friends always seem to take a couple when the fish are biting.

Blue Wing Olive
Size 14 - 18

Foam Ant
Size 18 - 20

Olive Madam X
Size 8 - 10

Light Cahill
Size 14 - 18

Recommended Fly Fishing Gear

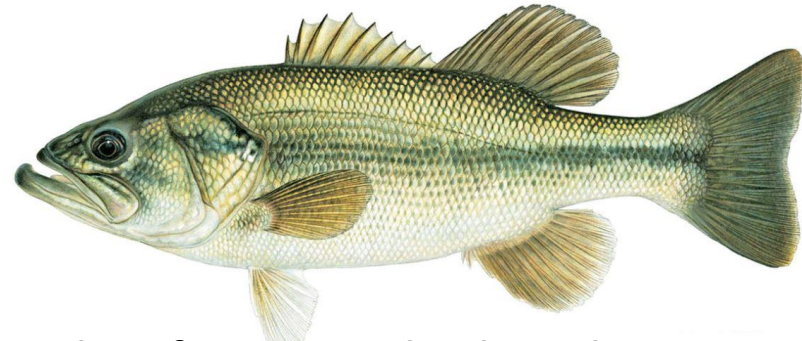

I'm going to suggest two different setups based on the SIZE and TYPE of the fish.

Small Trout and Panfish

Fly Rod = 8 foot, 4 weight Fly Rod
Leader = 9 foot tapered nylon 5X
Tippet = 16 inches 6X nylon

Bass and Large Trout

Fly Rod = 9 foot, 7 weight Fly Rod
Leader = 7 ½ foot tapered nylon 2X
Tippet = 16 inches 2X nylon
